FORGOT PASSWORD CHANGE ENDPOINT TEST REPORT

MADE BY: STEPHEN LI
ID: 19488679
Wintec

Forgot Password Change Endpoint Specification

The final step of the “Forgot password”. Change password API call to add a new password. This will authenticate the user with his email and OTP before changing the password.

Accepted user type: student IRM client admin

Request

Method	URL
POST	api/forgotPassChange/

Type	Params	Values
POST	email	string
POST	otp	string
POST	server_ref	string
POST	password	string

Response

Status	Response
200	{“description“:”Password changing successful. Please Sign In”}
~~400~~	~~{"error":"server_ref,email or OTP is empty"}~~
404	{"error":"Please provide valid email address"}

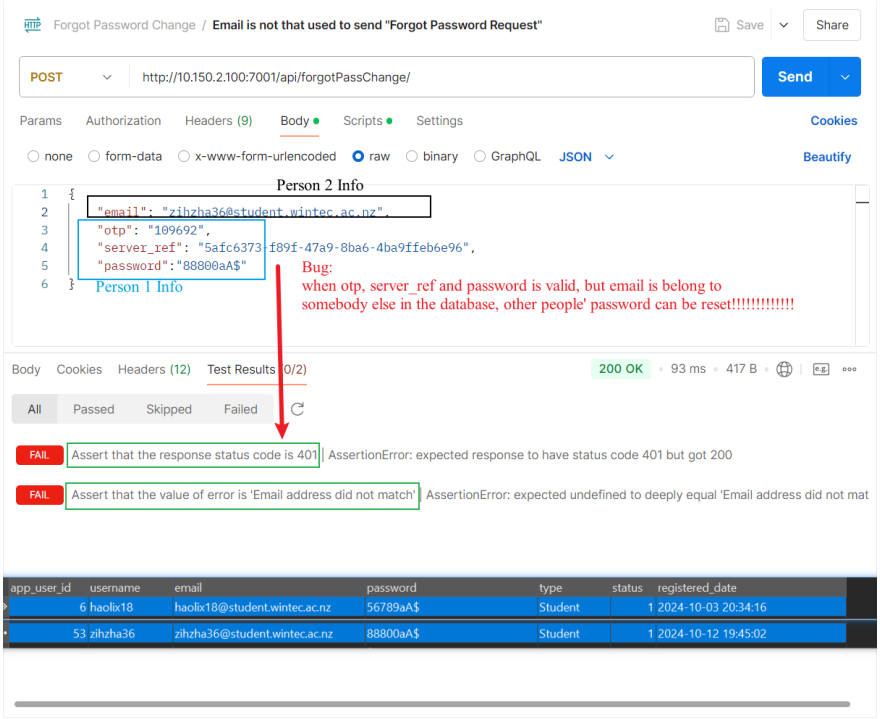
401	{"error":"Email address did not match"}
404	{"error":"Please provide password"}
403	{"error":"Password must contain at least one uppercase letter, one lowercase letter, one number, one special character, and be at least 8 characters long."}
401	{"error":"Invalid server_ref. Please try again"
401	{"error":"Invalid OTP. Please try again"}
410	{"error":"Invalid OTP. OTP has expired"}
500	{"error":"Something went wrong. Please try again later"}

Process Flow

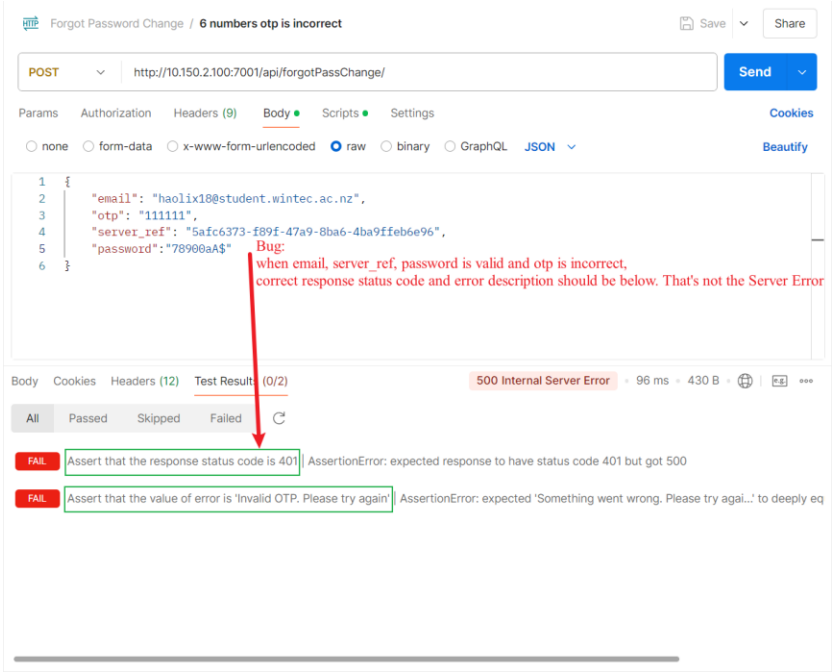
- Check **user_verification** table for matching **active** server_ref & OTP
  - **[server_ref={server_ref} && otp={otp} and status=1]**
  - Check the **app_user_id** and **email**
- If all records are matched →
  - Update **status** to **0** in **user_verification** table
  - Update the new password in **application_user** table
    - Create a password **Hash** with the strong hashing algorithm [How to create a Password Hash]
  - Return success response with 200 code
- If all records are not matched →
  - Update **status** to **0** in **user_verification** table **[where server_ref={server_ref}]**
  - Return 401 error code with response

All Bugs Identified in Postman

Bug 1: Test email is not that used to send “Forgot Password Request”



Bug 2: Test 6 numbers otp is incorrect



Bug 3: Test otp is empty

Forgot Password Change / **otp is empty**

Save | Share

POST http://10.150.2.100:7001/api/forgotPassChange/ Send

Params | Authorization | Headers (9) | Body | Scripts | Settings | Cookies

none | form-data | x-www-form-urlencoded | raw | binary | GraphQL | JSON | Beautify

```
{
    "email": "haolix18@student.wintec.ac.nz",
    "otp": null,
    "server_ref": "5afc6373-f89f-47a9-8ba6-4ba9ffeb6e96",
    "password":"78900sJ$"
}
```

Bug:
when otp is empty and others parameters are valid, correct reponse status code and error description should be below. That's not the Server Error.

Body | Cookies | Headers (12) | Test Results (0/2) | 500 Internal Server Error | 180 ms | 430 B

All | Passed | Skipped | Failed

FAIL Assert that the response status code is 401 | AssertionError: expected response to have status code 401 but got 500

FAIL Assert that the value of error is 'Invalid OTP. Please try again' | AssertionError: expected 'Something went wrong. Please try agai...' to deeply eq

Bug 4: Test password is empty

Forgot Password Change / **password is empty**

Save | Share

POST http://10.150.2.100:7001/api/forgotPassChange/ Send

Params | Authorization | Headers (9) | Body | Scripts | Settings | Cookies

none | form-data | x-www-form-urlencoded | raw | binary | GraphQL | JSON | Beautify

```
{
    "email": "haolix18@student.wintec.ac.nz",
    "otp": "412181",
    "server_ref": "5afc6373-f89f-47a9-8ba6-4ba9ffeb6e96",
    "password": null
}
```

Bug:
when password is empty and other parameters are valid, correct response status code and error description should be below. That's not the Server Error.

Body | Cookies | Headers (12) | Test Results (0/2) | 500 Internal Server Error | 46 ms | 429 B

All | Passed | Skipped | Failed

FAIL Assert that the response status code is 404 | AssertionError: expected response to have status code 404 but got 500

FAIL Assert that the value of error is 'Please provide password' | AssertionError: expected 'Something went wrong. Please try agai...' to deeply equal

Bug 5: Test Email contain special character

Forgot Password Change / **Email contain special character**
